

Kate Darling

Research Scientist at the MIT Media Lab

"A pioneer in the field of robot ethics and the intersection of technology and society"

Kate Darling is a leading expert in Robot Ethics. She's a researcher at the Massachusetts Institute of Technology (MIT) Media Lab, where she investigates social robotics and conducts experimental studies on human-robot interaction.

TOPICS:

- Why We Have an Emotional Connection to Robot
- Human-Robot Interaction and Empathy
- Robot Ethics
- Technology and Society
- Law and Ethics
- Artificial Intelligence

LANGUAGES:

She presents in English.

PUBLICATIONS:

- 2017 Creativity without Law: Challenging the Assumptions of Intellectual Property
- The New Breed: How to Think About Robots
- 2021 The New Breed: What Our History with Animals Reveals about Our Future with Robots

IN DETAIL:

Forever interested in how technology intersects with society, Kate has a background in law & economics and intellectual property. She has researched economic incentives in copyright and patent systems and has taken a role as intellectual property expert at multiple academic and private institutions. She formerly served as intellectual property policy advisor to the director of the MIT Media Lab. Her passion for technology and robots has led her to interdisciplinary fields. After co-teaching a robot ethics course at Harvard Law School, she began to work at the intersection of law and robotics, with a focus on legal and social issues. Kate is a former Fellow at the Harvard Berkman Klein Center for Internet & Society and the Yale Information Society Project and is also an affiliate at the Institute for Ethics and Emerging Technologies.

WHAT SHE OFFERS YOU:

Kate explores the emotional connection between people and life-like machines, seeking to influence technology design and policy direction. She shares with her audience the economic issues in intellectual property systems and looks at the near-term effects of robotic technology, with a particular interest in law, social, and ethical issues.

HOW SHE PRESENTS:

Dedicated to exploring the ever-expanding realm of human-robot interaction, leveraging Kate uses her expertise to uncover new possibilities. With an unwavering commitment to understanding the implications of this developing technology, she can offer insights into the exciting opportunities that come with this new era of human-robot interaction.
